

ECT/ECF Bulletin

Module 2: Engaging Pupils in Learning

Week: 7: Review of Module 2

Key events/meetings this week:

- This week mentors and ECTs should meet to review Module 2
- There is no separate ECT self study materials for this week
- ECTs have an Online Learning Community (OLC) session with their Facilitator
- Mentors and ECTs need to complete their end of module assessment form if they haven't done so already. Please ensure that this is complete before the end of the week. **This form should now be in your Gateway on UCLeXtend. See below for further guidance.**

ECT Self Study Actions (to be completed prior to your mentor meeting):

There are no self-study materials to read this week. You may wish to use this time to arrange to observe a colleague or ask your mentor to conduct a short informal lesson drop in. You should also spend some time revisiting your audit from the start of the module.

Mentor Meeting Key Actions:

Use the mentor meeting reading materials, focus on some of the actions that your mentee has taken over the course of the last 7 weeks – some of which will have been a success and others which will have not worked yet and require re-visiting.

As you reflect with your mentee, set a specific goal in relation to this module: 'By the end of the year I will', 'Over the next half-term, I will focus on developing'.

Additional Information:

ECTs, this week you have an Online Learning Community session with your facilitator. It is important that you know when this is taking place and how you will access the session. Please contact your facilitator if you are unsure. If you are unable to attend your OLC, it is imperative that you make both your Facilitator and Induction Tutor aware ASAP.

A reminder for ECTs and mentors: the end of module completion form went live on Wednesday 8 December and is in a similar format to the previous form. The form will direct you to complete a series of short questions to verify that you have participated fully in the programme and attended mentor meetings every week. You will also be asked to make some short comments evaluating your learning and experience across the half term. Once complete, your Induction Tutor will be notified via email and will need to verify that the information you have submitted is correct.

Looking ahead, UCL have introduced a new layout for module 3. A film guide is going to be produced on how to navigate the platform and the new module layout. UCL will include a section stating what time in the video different aspects of the platform are shown, allowing the viewer to 'high-speed scrub' to a specific point if they wish to view only that. This video will be available by next Wednesday at the latest. We are also going to send out a separate email which is simple written guide on how to navigate the new layout for module 3.
